

Category: Weather

Description:

Show current weather condition and sever-day forecasts. It can match your current location and time of the day for more convenience.

Features:

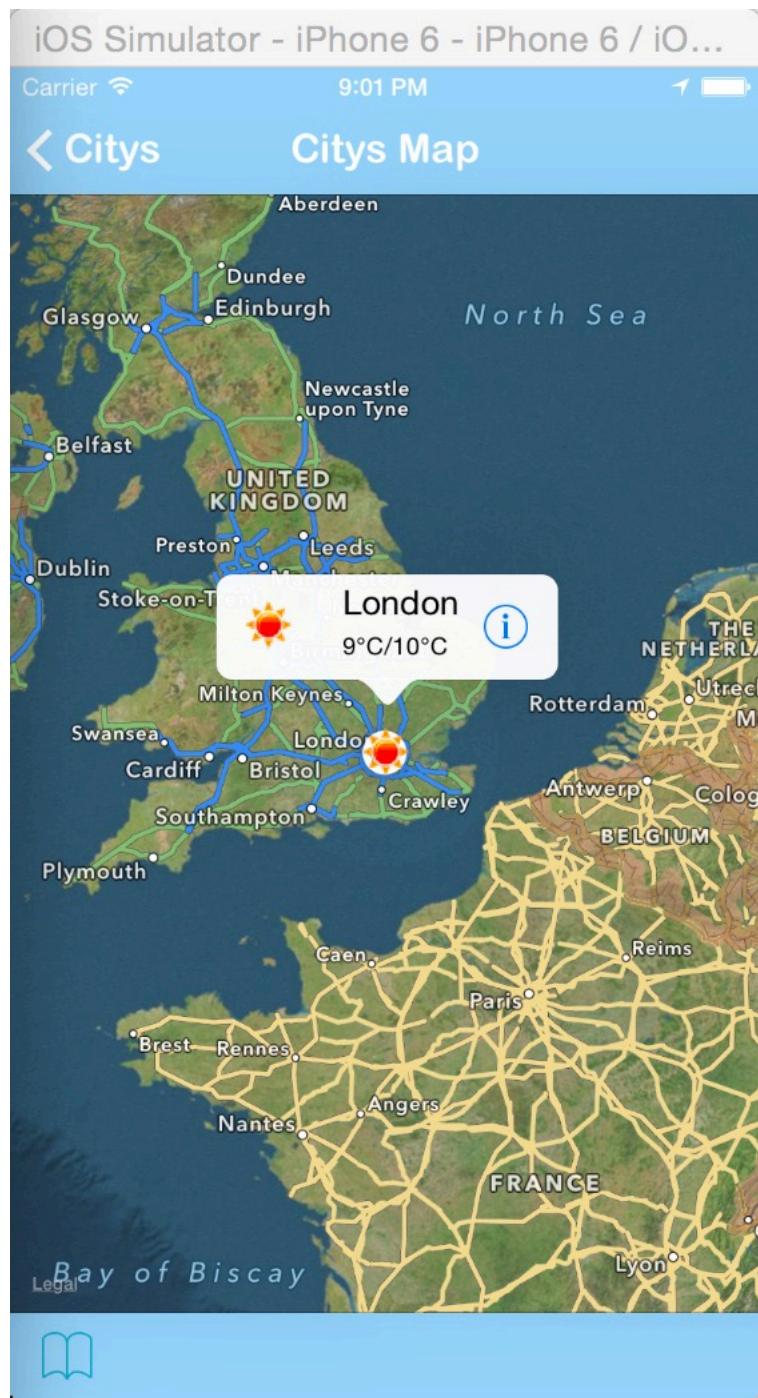

- It shows all details: winds, pressure, humidity and a brief description.
- A plot of temperature for next week offers the trend of climate change.
- An interactive map shows all cities chosen in the list. Clicking a bookmark and selecting one city can lead to the location of the city. If the icon of that city is clicked, a label including some info will appear. The label can also be clicked for more details.
- Search in the city list to add cities you prefer.
- Set notification to alert you daily weather at any time you want.
- Track all cities you prefer.

Help tips:

- Scroll down for more details.
- The final page can be page up or down.
- Scroll left and right in the middle to see weather of next week.
- Tap plus sign to add cities.
- Tap info sign to get using guides
- Tap map to see cities in a map.
- Tap setting sign to set a notification.
